Better Seeds for Your Garden

Whether you need only small amounts of Vegetable Seeds for your own garden or grow for the markets on a large scale—you will find this list invaluable.

Same as always was our policy in Farm Seeds, we shall aim to excel in quality rather than to compete in price. This list will serve you to your satisfaction and profit, too. Let it have the opportunity to do so this Spring!

A. H. Hoffman, Inc.

THE RIGHT VARIETIES—BEST QUALITY—AT FAIR PRICES

If you were one of the many hundreds who last Spring helped us open this Garden Seed Department successfully—we thank you warmly! You have thus become acquainted with the high qualities this list offers, and will let it serve you again this Spring. You who will start with us this year will find a new degree of satisfaction in your 1924 gardens.

There are no high-priced "specialties" on this list. No mass of varieties from which it is hard to make your selections. No lengthy descriptions or highly colored pictures. But just plain, short-stated facts about a few varieties—selected from all the others as the most profitable kinds. You save by this method, because prices must always cover the cost of all such "extras."

Take advantage of this service—qualities here offered you are first-class, tested seeds that will grow! Depend on them for 1924 and results will pay you! Varieties, terms, etc., see following pages.
